COMMUNITY NEWS AND MAINTENANCE TIPS

COMMUNITY NEWS

Weathering the Storm Together

As we move into October, we'd like to take a moment to reflect on the challenges many of our residents experienced during the previous month's storms and power outages across the islands.

We know these events disrupted daily routines and created uncertainty for many families, and we want to sincerely thank our residents for their patience, and aloha spirit throughout those circumstances.

During the outages, our teams worked diligently alongside our installation and utility partners to stay informed, share updates when available, and support restoration efforts within our communities.

While some aspects of power restoration were outside of our direct control, we remained committed to advocating for our residents and ensuring concerns were communicated to the appropriate partners.

One of the things that makes Hawaii so special is the way our communities come together during challenging times.

We were inspired by the kindness, resilience, and neighborly support shown throughout the month, as residents checked in on one another and lent a helping hand whenever needed.

Mahalo for your continued trust and patience. Serving our residents is at the heart of what we do, and we remain committed to providing a safe, welcoming, and caring place to call home. As we head into a new month, we are grateful to have weathered these challenges together and look forward to brighter days ahead.

Camp Stover Community Roofing Upgrades

We're happy to share that roofing upgrades have officially begun in the Camp Stover Community. Work started in mid-September and will continue throughout all historic homes as part of our ongoing improvement efforts.

Each home will be completed in phases, and we will provide you with further information as soon as your home is next in line for installation. Thank you for your patience as we work to enhance the quality and longveity of our community.

Maintenance Reminders: Check for Leaks

Please take a few minutes to inspect under sinks, around toilets, and near appliances for signs of leaks. Early detection can help prevent water damage. If you notice a leak, submit a maintenance request as soon as possible.
