COMMUNITY DIRECTOR UPDATE
NOVEMBER 1, 2026

Thanksgiving Office Closure Reminder
Our office will be closed on Thursday, November 26, in observance of Thanksgiving.
We will reopen and resume regular business hours on Friday, November 27.

A SEASON OF GRATITUDE AT OHANA NAVY!

We have partnered with **Dad's Towing** to begin removing abandoned and unauthorized vehicles throughout our communities. New signage will be installed to notify residents of the towing provider. Because of the number of vehicles involved, this process will take place over time.

Change Your A/C Filter Every 90 Days: A clean HVAC filter is one of the easiest ways to keep your home comfortable and your heating and cooling system operating efficiently. To help maintain proper airflow and indoor air quality, residents are encouraged to replace their A/C filter every 90 days.

Why Is Filter Replacement Important?

- Improves indoor air quality by reducing dust, allergens, and airborne particles.
- Promotes better airflow and overall system performance.
- Helps your HVAC system operate more efficiently, which may reduce energy consumption.
- Reduces wear and tear on equipment, helping prevent unnecessary maintenance issues.
- Minimizes dust buildup throughout your home.

While changing your filter, check the area around your HVAC unit for water leaks, moisture, unusual odors, or excessive dust buildup. If you notice any concerns, submit a maintenance request promptly to help prevent further damage and keep your system running efficiently.

Free HVAC filters are available for **all filter sizes** at the following locations:

- Main Maintenance Shop
- RSO Office
- PMRF Maintenance Office

Please bring a valid photo ID and your housing address to pick up free filters at any of the locations mentioned above.
